

EAGLE® 0.39% Granular Turf Fungicide

A granular product containing a systemic protectant and curative fungicide for the control of diseases in established turfgrass.

ACTIVE INGREDIENT:

myclobutanil; a-butyl-a-(4-chlorophenyl)-
1-H-1,2,4 triazole-propanenitrile.....0.39%

INSERT INGREDIENTS: 99.61%

Total 100.00%

This product contains 0.156 lb of the active ingredient myclobutanil per 40 lb bag.

KEEP OUT OF REACH OF CHILDREN

CAUTION – PRECAUCIÓN

Si usted no entiende la etiqueta, busque a alguien para que le explique los datos en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

FIRST AID

If in eyes	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-522-5994 day or night, for emergency treatment information.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Causes moderate eye irritation. Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

User must wear:

- Long-sleeved shirt and long pants
- Chemical-resistant gloves made of any waterproof material
- Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENGINEERING CONTROLS

When handlers use closed systems, enclosed carts or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or disposing of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep away from fire and sparks. Store in a cool, dry, well-ventilated area.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Non-refillable container. Do not reuse or refill this container.

Completely empty bag into application equipment. Then offer for recycling if available, or dispose of it in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.

GENERAL INFORMATION

LESCO® Eagle® 0.39% Granular Turf Fungicide is a systemic, protectant and curative fungicide recommended for the control of listed diseases in established turfgrass. Examples of such sites include, but are not limited to: residential and commercial lawns, ornamental turf, grounds or lawns around business and office complexes, golf courses (fairways, roughs, tees, greens) and sod farms. Optimum disease control is achieved when this product is applied to established turfgrasses in a regularly scheduled preventative program.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is

- Coveralls
- Chemical-resistant gloves made from any waterproof material
- Shoes plus socks

NON-AGRICULTURAL USES REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses. Seed treatments and professional applications to lawn grasses, golf courses, industrial (office park), municipal and residential lawns are not within the scope of the Worker Protection Standard.

Keep unprotected persons out of treated area until dusts have settled.

USE DIRECTIONS FOR TURFGRASS

- LESCO® Eagle® 0.39% Granular Turf Fungicide should be used in conjunction with NM management practices that promote good plant health and optimum disease control. The key to selecting a fungicide is the proper diagnosis of the organism causing the disease. Diagnostic kits, extension experts or other identification methods should be used when developing disease control strategies.
- In non-residential turfgrass, optimum disease control is achieved when LESCO® Eagle® 0.39% Granular Turf Fungicide is applied in a preventative disease control program at a rate of 4 to 8 lb per 1000 sq ft. See the following table for specific application rates for various diseases.
- In residential turfgrass, optimum disease control is achieved when LESCO® Eagle® 0.39% Granular Turf Fungicide is applied in a preventative disease control program at a rate of 4 lb per 1000 sq ft. See the following table for specific application rates for various diseases.
- For the control of root and crown rot this product must be watered-in using a minimum of 3 to 4 gallons of water per 1000 sq ft.
- Under conditions that are favorable for disease development, the interval between applications of LESCO® Eagle® 0.39% Granular Turf Fungicide should be reduced.
- Unless otherwise specified, when disease pressure is high or when used as a curative use higher rates of LESCO® Eagle® 0.39% Granular Turf Fungicide and shorter application interval. Under light to moderate disease pressure, apply LESCO® Eagle® 0.39% Granular Turf Fungicide at the low use rate and/or longer application intervals.
- Apply LESCO® Eagle® 0.39% Granular Turf Fungicide uniformly using an appropriate spreader. Calibrate the spreader before application as calibration may change with spreader age and use, walking speed and evenness of travel. To calibrate the spreader, weigh out the amount of product necessary to treat an area of 800 sq ft. Using the suggested spreader setting provided by the manufacturer or from the table below, apply to a pre-measured area of 500 sq ft (5 x 100 sq ft) area. Weigh back product remaining in application equipment and adjust the spreader as necessary to give the correct rate of delivery for the measured area.
- To avoid pick-up, lightly irrigate treated areas soon after application.
- On short cut bentgrass (1/2" or less) when temperatures are above 80°F; apply only to dry foliage.

SUGGESTED SPREADER SETTINGS*

Recommended Rate (LESCO® Eagle® 0.39% Granular Turf Fungicide) lb per 1,000 sq ft

Spreader	4 lb	8 lb	16 lb
LESCO®	13	15	17
Opdyke® or Spangler®	3	4½	4½
Voice®	20	28	32
Lay®	2½ lb	4½ lb	4½ lb

Apply LESCO® Eagle® 0.39% Granular Turf Fungicide with drop or rotary spreaders designed to apply granules. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Before each application, calibrate the spreader according to the equipment manufacturer's directions such that the spreader delivers the recommended application rate. Apply this product uniformly over the lawn or ornamental turf area. A more uniform application can be made by spreading half of the required amount over the area in a given direction and then applying the remaining half in a right angle to the previous direction. Avoid streaking, skips or overlaps during application. Check equipment frequently to ensure equipment is functioning properly and applying uniform distribution of granules.

EAGLE® 0.39% Granular Turf Fungicide

development

Non-Residential Turfgrass

Disease	LESCO® Eagle® 0.39% Granular Turf Fungicide (50 lb/100 sq ft)	Application Interval	Instructions	Restrictions
Anthracnose Red Thread Septoria Leaf Spot Brown Patch	4	14-21 days	Apply when conditions are favorable for disease development.	Do not apply more than 45 lb product per 1000 sq ft per year. For Nessus and Sod's Control in New York State, use of this product is limited to 11.5 lb per 1000 sq ft per year (1.5 lb active ingredient per sq ft).
Copper Root Zoysia Leaf Spot	4	14 days	Apply when conditions are favorable for disease development.	
Crown Rot Leaf Spot Mossing Out	4	14 days	Apply when conditions are favorable for disease development. For crown rot, water in with 3 to 4 gallons of water per 1000 sq ft to increase penetration to crown and roots.	
Dollar Spot	3-8	14-28 days	Apply when conditions are favorable for disease development. Make no more than 3 consecutive applications for dollar spot control before rotating to a registered fungicide with a different mode of action.	
Fusarium Blight	4-8	14-21 days	Apply when conditions are favorable for disease development.	
Fusarium Patch (both lawns and golf)	4-8	Post - Winter	Apply prior to winter.	
Leaf Spots	4	14 days	Apply in the fall after grass crown dormancy ends or in the spring prior to the beginning of growth.	
Thatch Ring Spot	4-8	Spring: 19 days Fall: 23 days	Make applications on a preventive basis in early spring. Fall: 2 applications beginning 14 days before 8.9 inch green column. Apply 8 lb/1000 sq ft followed by a second application one month later.	
Powdery Mildew Moss	4	14-28 days	Apply when conditions are favorable for disease development.	
Summer Patch	4-8	14-28 days	Begin applications in the spring when conditions are favorable for disease development. Make 2 to 4 applications depending on recommendations from local turfgrass extension experts. Water in with at least 3 to 4 gallons of water per 1000 sq ft to increase spray penetration to crown and roots.	
Tan spot	8	Spring/Fall: 28 days	To reduce the severity of tan spot, make 1 to 2 fall applications in September and October or 1 to 2 spring applications in April and May depending on local environmental conditions.	
Zoysia Leaf Patch	8	Post: 23 days	Make applications in fall before buff dormancy ends and water in with at least 3 to 4 gallons of water per 1000 sq ft to increase penetration to crown and roots.	

1) Not for sale to commercial lawn care, agricultural, turf, grounds or lawn care business and other companies, self-employed, rough, less, general and end users.

Terms and Conditions of Use

If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened products to Onceit for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies.

Warranty Disclaimer

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the Inherent Risks set forth below. Seller MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of the Seller. To the extent permitted by law, all such risks shall be assumed by buyer.

Limitation of Remedies

To the extent permitted by law, the exclusive remedy for losses or damages resulting from this product (including damages based on cost of repair, negligence, strict liability, or other legal theories) shall be limited to, at Seller's election, one of the following:

1. Return of purchase price paid by buyer or user for product bought or
 - 2. Replacement of amount of product used.

To the extent permitted by law, Seller shall not be liable for losses or damages resulting from handling or use of this product unless Seller is promptly notified of such loss or damage in writing. In no case shall Seller be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimer, Inherent Risks of Use, and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Onceit or the Seller is authorized to vary or exceed the terms of the Warranty Disclaimer or the Limitation of Remedies in any manner.
